INDEX TO VOLUME 7

SUBJECT INDEX

Abortion

- histopathologic changes associated with
 - prostaglandin, 133
 - immediate insertion of Copper-T device, 299
 - vaginal operation, 11
- Adhesives, tissue, effect on endometrium (rabbit), 145
- Anastomosis, post-vasectomy vas deferens, use of silicone
 - rubber splint, 491
- Antagonist, estrogen, action in intact and ovariectomized
 - (rat), 231
- Benzofuran [2-phenyl-3-p-(β -pyrrolidino-ethoxy)phenyl-6-methoxy benzofuran hydrochloride]
 - Benzofuran, estrogenicity (rat), 115
- Biochemical influence, effect on ovarian function, 523
- Carcinoma of cervix with an IUD, 227
- Cervical perforation, Copper-T device, 515
- Cervix, invasive epidermal carcinoma with an IUD, 227
- Chroman [3,4-trans-2,2-dimethyl-3-phenyl-4-(p-(β -pyrrolidinoethoxy)-phenyl)7-methoxy chroman]
 - Chroman, estrogenicity (rat), 115
- Chlormadinone acetate (6-chloro-17 α -hydroxypregna-4,6-diene-3,20-dione-17-acetate)
 - changes in ovaries after long-term use, 503
 - mammary gland nodules, 203
- 1 α -³H-Chlormadinone acetate
 - disappearance from plasma, 27
 - distribution in reproductive tract, 313
 - uptake and disappearance in tissue (rat), 47
- Cingestol, changes in ovaries after long-term use, 503
- Coitus-induced ovulation, 523
 - conceptions, 523
 - eutherian and mammalian species, 523
- Conceptions, coitus-induced ovulation, 523
- Contraception, post-coital, review, 459
- Contraceptive choice and dysplasia, 435
- Contraceptive effectiveness, Dalkon Shield, 1
- Contraceptive steroids, effect on spermatozoa, 213
- Copper, influence on motility of spermatozoa, 381
- Copper-T device, 299, 327, 381, 477, 515
 - cervical perforation, 515
 - experience of two-man team, 477
 - influence on motility of spermatozoa, 381
 - insertion immediately after abortion, 299
 - laparoscopic removal, 327
- Copper wire, intrauterine, absence of teratogenicity
 - (rat, hamster, rabbit), 413

CONTRACEPTION

- Dalkon Shield, 1
 - contraceptive effectiveness, 1
 - IUD, 91
 - side effects, 1
 - use-effectiveness, 91
- Danazol [17 α -pregn-4-en-20-yno-(2,3-d)isoxazol-17-ol]
- Danazol-testosterone combination, reversible male contraception, 357
- Dihydroxyprogesterone acetophenide + estradiol enanthate
 - liver function, 403
 - metabolic fate, 271
- Disappearance, 1 α -³H-chlormadinone acetate from plasma, 27
- Disappearance, 1 α -³H-chlormadinone acetate in tissue
 - (rat), 47
- Distribution of 1 α -³H-chlormadinone acetate in reproductive tract, 313
- Dysplasia and contraceptive choice, 435
- Electrocauterization, tubal, under hysteroscopic control, 195
- Endocrine response to melatonin and serotonin (rat), 153
- Endometrium, effect of tissue adhesives (rabbit), 145
- Estradiol enanthate + dihydroxyprogesterone acetophenide
 - liver function, 403
 - metabolic fate, 271
- Estrogen antagonist [1-(2-{p-(α -(p-methoxyphenyl)- β -nitrostyryl)-phenoxy}-ethyl)-pyrrolidine monocitratel
- Estrogen antagonist, action in intact and ovariectomized (rat), 231
- Estrogen-progestogen, long-acting, effect on liver function, 403
- Estrogen-progestogen contraceptive, long-acting, metabolic fate, 271
- Estrogenicity, nonsteroidal compounds (rat), 115
- Ethynyl estradiol + norgestrel, effect on human milk, 307
- Fertility control in male, implanted silastic capsules containing testosterone (rat), 105
- Fertilizing capacity, spermatozoa, inhibition by sialoproteins
 - (rabbit), 65
- Fluid, uterine, immunologic studies (rat), 125
- Follicular phase, peculiarity in animals and human, 523
- Gametogenic response to melatonin and serotonin (rat), 153
- Genital tract, female, physiology of sperm, 183
- Histopathologic changes associated with prostaglandin induced abortion, 133
- Hormonal methods, post-coital contraception, 459
- Hypophyseal responsiveness to synthetic LH-RH during menstrual cycle, 289
- Hysteroscopic control, tubal electrocauterization, 195
- Immunologic studies, uterine fluid (rat), 125
- Implanted silastic capsules containing testosterone, fertility control in male (rat), 105
- Inhibition, fertilizing capacity of spermatozoa by sialoproteins
 - (rabbit), 65
- Inhibition of ability of blastocyst to implant, post-coital contraception, 459
- Injectable long-acting estrogen-progestogen contraceptive, metabolic fate, 271

- Injectable progestogen-estrogen, effect on liver function, 403
- Intrauterine copper wire, absence of teratogenicity (rat, hamster, rabbit), 413
- Invasive epidermal carcinoma of cervix with an IUD, 227
- IUD, 1, 91, 227, 243, 299, 327, 381, 477, 515
 - Copper-T device, 299, 327, 381, 477, 515
 - Dalkon Shield, 1, 91
 - influence on uterine neutrophils (rat), 243
 - invasive epidermal carcinoma of cervix, 227
- Laparoscopic removal of perforated copper T IUD, 327
- LH-RH, synthetic, changes in hypophyseal responsiveness during menstrual cycle, 289
- Liver function, effect of long-acting progestogen-estrogen, 403
- Long-acting injectable estrogen-progestogen contraceptive, metabolic fate, 271
- Long-acting progestogen-estrogen, effect on liver function, 403
- Long-term progestogen administration, changes in ovaries, 503
- Male, fertility control with implanted silastic capsules containing testosterone (rat), 105
- Male contraception, reversible, danazol - testosterone combination, 357
- Mammary gland nodules, women under continuous exposure to progestogens, 203
- Medroxyprogesterone acetate, mammary gland nodules, 203
- Megestrol acetate
 - changes in ovaries after long-term use, 503
 - effect on human milk, 307
- Melatonin and serotonin, testicular gametogenic and endocrine responses (rat), 153
- Menstrual cycle, changes in hypophyseal responsiveness to synthetic LH-RH, 289
- Metabolic fate, long-acting injectable estrogen-progestogen contraceptive, 271
- Milk, human, effect of oral contraceptives, 307
- Motility of spermatozoa, influence of copper, 381
- Naphthofuran [2-phenyl-3-p-(β -pyrrolidinoethoxy)phenyl-naphtho (2,1-b) furan]
 - estrogenicity (rat), 115
- Nervous influence, effect on ovarian function, 523
- Neurohormonal connections, animals and human, 523
- Neutrophils, uterine, influence of IUDs (rat), 243
- Nodules, mammary gland, women under continuous exposure to progestogens, 203
- Nonsteroidal compounds, estrogenicity (rat), 115
- Nonsteroidal compounds, post-coital contraceptives (rat), 115
- Norgestrel + ethynyl estradiol, effect on human milk, 307
- D-Norgestrel, postcoital contraception, 367
- Occlusion, tubal, following single instillation of Quinacrine, 333
- Oral contraceptives, effect on human milk, 307
- Ovarian functions, direct nervous, biochemical and pharmacological influences, 523
- Ovaries, changes after long-term use of microdose progestogens, 503
- Ovulation, paracyclic, 523

CONTRACEPTION

- Paracyclic ovulation, 523
- Perforated copper T IUD, laparoscopic removal, 327
- Perforation, cervical, copper-T device, 515
- Pharmacological influence, effect on ovarian function, 523
- Pheromones, possible role in post-coital contraception, 459
- Physiology of sperm in female genital tract, 183
- Plasma, disappearance of 1α - 3 H-chlormadinone acetate, 27
- Post-coital contraception
 - hormonal methods, 459
 - inhibition of ability of blastocyst to implant, 459
 - D-norgestrel, 367
 - possible role of pheromones, 459
 - review, 459
- Post-coital contraceptives, nonsteroidal compounds (rat), 115
- Post-vasectomy vas deferens anastomosis, use of silicone rubber splint, 491
- Progestogens
 - mammary gland nodules in women under continuous exposure, 203
 - microdose, changes in ovaries after long-term use, 503
- Progestogen-estrogen, long-acting, effect on liver function, 403
- Progestogen-estrogen contraceptive, long-acting, metabolic fate, 271
- Propiophenone (3-chloro-2,3-diphenyl-propiophenone)
- Propiophenone, estrogenicity (rat), 115
- Prostaglandin induced abortion, histopathologic changes, 133
- Psychology and reproduction, 523
- Quinacrine, tubal occlusion following single instillation, 333
- Quingestanol acetate, changes in ovaries after long-term use, 503
- Radioisotope assay, sperm-binding globulin (rabbit), 57
- Removal, perforated copper T IUD with laparoscope, 327
- Reproduction and psychology, 523
- Reproductive tract, distribution of 1α - 3 H-chlormadinone acetate, 313
- Reversible male contraception, danazol-testosterone combination, 357
- Serotonin and melatonin, testicular gametogenic and endocrine responses (rat), 153
- Sialoproteins, inhibition of fertilizing capacity of spermatozoa (rabbit), 65
- Side effects, Dalkon Shield, 1
- Silastic capsules, implanted, containing testosterone for fertility control in male (rate), 105
- Silicone rubber splint for post-vasectomy vas deferens anastomosis, 491
- Sperm, physiology in female genital tract, 183
- Sperm-binding globulin, radioisotope assay (rabbit), 57
- Spermatozoa
 - effect of contraceptive steroids, 213
 - influence of copper on motility, 381
 - inhibition of fertilizing capacity by sialoproteins (rabbit), 65
- Steroids, contraceptive, effect on spermatozoa, 213
- Synthetic LH-RH, changes in hypophyseal responsiveness during menstrual cycle, 289
- Teratogenicity, absence with intrauterine copper wire (rat, hamster, rabbit), 413

CONTRACEPTION

- Testicular gametogenic response to melatonin and serotonin (rat), 153
- Testosterone in implanted silastic capsules for fertility control in male (rat), 105
- Testosterone-danazol combination, reversible male contraception, 357
- Tissue, uptake and disappearance of 1α - 3 H-chlormadinone acetate (rat), 47
- Tissue adhesives, effect on endometrium (rabbit), 145
- Tubal electrocauterization under hysteroscopic control, 195
- Tubal occlusion following single instillation of Quinacrine, 333
- Uptake, 1α - 3 H-chlormadinone acetate in tissue (rat), 47
- Use-effectiveness, Dalkon Shield, 91
- Uterine fluid, immunologic studies (rat), 125
- Uterine neutrophils, influence of IUDs (rat), 243
- Vaginal operation, abortion, 11
- Vas deferens, post-vasectomy anastomosis with silicone rubber splint, 491
- Vasectomy, post-vasectomy vas deferens anastomosis with silicone rubber splint, 491

The first part of the paper discusses the importance of the study of the history of the United States. It is argued that the study of the history of the United States is essential for a full understanding of the country and its people. The second part of the paper discusses the importance of the study of the history of the United States. It is argued that the study of the history of the United States is essential for a full understanding of the country and its people.

The third part of the paper discusses the importance of the study of the history of the United States. It is argued that the study of the history of the United States is essential for a full understanding of the country and its people. The fourth part of the paper discusses the importance of the study of the history of the United States. It is argued that the study of the history of the United States is essential for a full understanding of the country and its people.

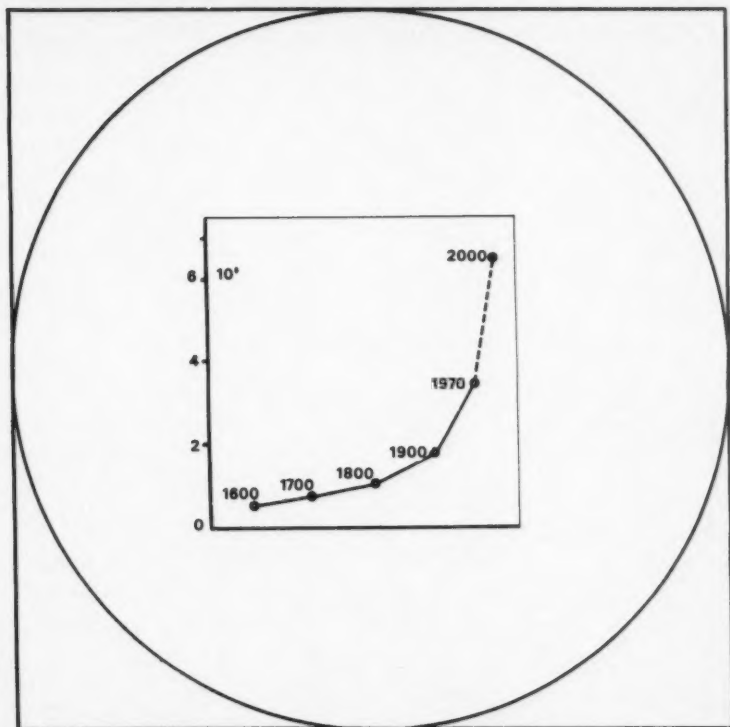

The fifth part of the paper discusses the importance of the study of the history of the United States. It is argued that the study of the history of the United States is essential for a full understanding of the country and its people. The sixth part of the paper discusses the importance of the study of the history of the United States. It is argued that the study of the history of the United States is essential for a full understanding of the country and its people.

Vol. 7 1973

JANUARY—JUNE

CONTRACEPTION

AN INTERNATIONAL JOURNAL

DANIEL R. MISHELL, Jr., M.D.—Editor

ROBERT M. NAKAMURA, Ph.D.—Managing Editor

Publisher: GERON-X, INC., LOS ALTOS, CALIF.

BOARD OF ASSOCIATE EDITORS

M. C. Chang, Ph.D., Sc. D.
Senior Scientist
Worcester Foundation for
Experimental Biology
Shrewsbury, Massachusetts 01545

Philip A. Corfman, M.D.
Director of Population Research
National Institute of Child Health
and Human Development
Bethesda, Maryland 20014

Judith Blake Davis, Ph.D.
Professor
Graduate School of Public Policy
2607 Hearst Avenue
University of California
Berkeley, California 94720

Celso-Ramon Garcia, M.D.
Professor
Department of Obstetrics and
Gynecology
University of Pennsylvania
School of Medicine
Philadelphia, Pennsylvania

Joseph W. Goldzieher, M.D.
Director, Division of Clinical
Sciences
Southwest Foundation for Research
and Education
San Antonio, Texas

Luigi Mastroianni, Jr., M.D.
Professor and Chairman
Department of Obstetrics and
Gynecology
Hospital of the University of
Pennsylvania
Philadelphia, Pennsylvania 19104
Dean L. Moyer, M.D.
Professor of Obstetrics and
Gynecology
University of Southern California
School of Medicine
Los Angeles, California 90033

William D. Odell, M.D.
Professor and Chairman
Department of Medicine
Harbor General Hospital
U.C.L.A. School of Medicine
Torrance, California 90509

C. Alvin Paulsen, M.D.
Professor of Medicine
Department of Medicine
University of Washington
School of Medicine
Seattle, Washington 98114

John J. Sciarra, M.D., Ph.D.
Professor and Head
Dept. of Obstetrics and Gynecology
University of Minnesota
Box 395, Mayo Memorial Building
Minneapolis, Minnesota 55455

M. C. Shelesnyak, Ph.D.
Director, Interdisciplinary
Communications Program
Smithsonian Institution
1025 Fifteenth Street, N.W.
Washington, D.C. 20005

Sheldon Segal, Ph.D.
Director, Bio-Medical Division
The Population Council
Rockefeller University
York Avenue and 66th Street
New York, New York 10021

Hans H. Simmer, M.D.
Professor of Obstetrics and
Gynecology and Medical
History
U.C.L.A. School of Medicine
Los Angeles, California 90024

Anna L. Southam, M.D.
Program Officer
International Division-Population
The Ford Foundation
320 East 43rd Street
New York, New York 10017

Christopher Tietze, M.D.
Associate Director
Bio-Medical Division
The Population Council
2 East 103rd Street
New York, New York 10029

Corresponding Editors for CONTRACEPTION

Roberto Caldeyro-Barcia, M.D.
Professor and Chairman
Department of Physiopathology and
Service of Obstetrical Physiology
University of Uruguay School of
Medicine
Montevideo, Uruguay

Elisamar Coutinho, M.D.
Professor
Department of Biochemistry and
Obstetrics
University of Bahia
Salvador, Bahia, Brazil

Egon Diczfalussy, M.D.
Professor
Reproductive Endocrinology
Research Unit
Swedish Medical Research Council
Karolinska sjukhuset,
Stockholm 60, Sweden

I. Ferin, M.D.
Professor
Physiology of Human Reproduction
Research Unit
University of Louvain Hospital
Leuven, Belgium

I. Halbrecht, M.D.
Professor
Department of Obstetrics and
Gynecology
Tel Aviv University Medical School
Tel Aviv, Israel

Professor Dr. med. Jürgen Haller
Professor of Obstetrics and
Gynecology
Universitäts-Frauenklinik
Humboldtallee 5
34 Göttingen, Germany

Professor Wladimiro Inguilla
IA Clinica Ostetrica e Ginecologica
dell' Università di Roma
Policlinico Umberto 1°
Rome, Italy

Dr. A. B. Kar, Ph.D., F.N.I.
Deputy Director and Head
Division of Endocrinology
Central Drug Research Institute
Chatter Manzil Palace
Post Box No. 173
Lucknow, India

INDEX TO VOLUME 8

SUBJECT INDEX

Abortion

- induced, assessment of sequelae, WHO Task Forces, 67
- intra-amniotic 15-me-PGF₂ administration, 113
- intra-amniotic prostaglandin administration, 113
- menstrual extraction, 527
- potential use of ultrasound, 429
- prostaglandin E₂ vaginal suppositories, 255
- Acceptability, fertility regulating methods, WHO Task Forces, 67
- Accessory genital organs and spermatozoa, effect of testosterone after castration (rat), 471
- Accessory sex glands and testes, effect of intratesticular injections of prostaglandins (rat), 361
- Androgen and progestin, combined administration for control of spermatogenesis, 191
- Anti-luteinizing hormone releasing factor serum, ovulation blockade (rat), 133
- Antiserum to luteinizing hormone releasing factor (rabbit), 133
- Autoimmune hypospermatogenesis after vasectomy (guinea pig), 147
- Biodegradable carrier for contraceptive steroids, polylactic acid (rat), 227
- Birth control methods, scale of use, safety and impact, 1
- Blastocyst, effect on implantation following IUD sham treatment (rat), 555
- Blastocyst development, effect of xenoantiserum (mouse), 327
- Capsule, dimethylpolysiloxane with norgestrel, local intrauterine effect (rabbit), 439
- Capsules, release of progesterone from polymeric systems (monkey), 299
- Carbohydrate, serum protein-bound, in pill users, 541
- Castration, effect of testosterone treatment (rat), 471
- C-film, vaginal contraceptive, 291
- Chemical compounds, effect on eggs in culture (mouse), 343
- Chlormadinone acetate (6-chloro-17-hydroxypregna-4,6-diene-3, 20-dione, acetate)
- Chlormadinone acetate, effect on liver mitochondrial structure and function (rat), 569
- Colpotomy, posterior, sterilization by salpingectomy, 577
- Contraceptive steroids, biodegradable carrier, polylactic acid (rat), 227
- Copper T 200, post-abortion insertion, 583
- Corpus luteum, influence of oxymetholone and HCG administration, 515
- Corpus luteum function, inhibition by diethylstilbestrol, 27
- Detection, use of ultrasonography for IUDs, 485
- Diethylstilbestrol, inhibition of corpus luteum function, 27
- 3,4-trans-2,2-dimethyl-3-phenyl-4-p-(β -pyrrolidinoethoxy)phenyl-7-methoxy chroman (centchroman), effect on uterus and uterine fluid (rat), 235

CONTRACEPTION

- Dimethylpolysiloxane capsule, norgestrel, local intrauterine effect (rabbit), 439
- Eggs in culture
 - effect of uterine fluid from IUD horn (mouse), 343
 - effect of various chemical compounds (mouse), 343
- Endometrium cytoplasmic fraction, binding of norethynodrel, 451
- Estradiol activation, effects of xenoantiserum on blastocyst development (mouse), 327
- Estrogens, plasma levels during treatment with medroxyprogesterone acetate, 165
- Fertility, after discontinuation of use of medroxyprogesterone acetate, 407
- Fertility control studies, male, 187
- Fertility regulating agents, WHO Task Forces for research and development, 67
- Folate status, long-term oral contraceptive use, 43
- Glycoproteins, serum, in pill users, 541
- 13-Ethyl-17 α -ethynyl-17-hydroxy-gona-4,9,11, trien-3-one (R2323) and testosterone, inhibition of spermatogenesis, 207
- Gonadal function stimulating agents, WHO Task Forces, 67
- Hazard of translocation, conversion of Lippes device into a closed loop, 357
- HCG stimulated corpus luteum, influence of oxymetholone, 515
- Hypospermatogenesis, autoimmune, after vasectomy (guinea pig), 147
- Hysteroscopic sterilization
 - research reports, 265
 - teaching and learning, 265
 - workshop, 265
- Hysteroscopy
 - clinical experience, 265
 - history and instrumentation, 265
- Identification, use of ultrasonography for IUDs, 485
- Impact, safety and use, birth control methods, 1
- Implantation
 - effect on blastocysts following IUD sham treatment (rat), 555
 - methods for regulation, WHO Task Forces, 67
- Inert IUDs, 99
- Intra-amniotic prostaglandin administration, induction of mid-trimester abortion, 113
- Intratesticular injections, effect of prostaglandins (rat), 361
- Intrauterine capsule, local progestational effect of norgestrel (rabbit), 439
- IUD
 - continuation of use, 99
 - inert, 99
 - infected ovarian cysts, 521
 - Lippes loop, conversion into a closed loop, 357
 - Lippes loop, hazard of translocation, 357
 - mechanism of action, 99
 - medicated, 99
 - modifications, 99

- post-abortion insertion, 583
- recent developments, 99
- scale of use, safety and impact, 1
- side effects, 99
- ultrasonic detection, localization and identification, 485
- use-effectiveness, 99
- uterine fluid, effect on eggs in culture (mouse), 343
- uterine neutrophilic response (rat), 549
- IUD sham treatment, effect on implantation of blastocyst (rat), 555
- Life table analysis, quinestrol-quinestanol, 37
- Lippes loop, post-abortion insertion, 583
- Liver mitochondrial structure and function after administration of synthetic progesterone (rat), 569
- Localization, use of ultrasonography for IUDs, 485
- Long-term oral contraceptive use, folate status, 43
- Long-term treatment with medroxyprogesterone acetate, plasma levels of estrogens, 165
- Low-dose lynestrenol as a contraceptive method, 315
- Luteinizing hormone releasing factor (LRF), 133
- Lynestrenol, low-dose, contraceptive method, 315
- Lynoestrenol-mestranol, serum protein-bound carbohydrate and seromucoid, 541
- Male fertility, methods for regulation, WHO Task Forces, 67
- Male fertility control
 - combined administration of progestin and androgen, 191
 - norethindrone, 219
 - norethindrone and testosterone, 219
 - progestin and testosterone, 207
- Male fertility control studies, 187
- Medicated IUDs, 99
- Medroxyprogesterone acetate
 - plasma levels of estrogens during treatment, 165
 - return of fertility after discontinuation of use, 407
- Megestrol acetate and testosterone, control of spermatogenesis, 191
- Menstrual extraction, review of 400 procedures, 527
- Miniabortion, menstrual extraction, 527
- Mitochondrial structure and function, effect of synthetic progesterones (rat), 569
- Myometrium cytoplasmic fraction, binding of norethynodrel, 451
- Neutrophils, uterine, response to IUDs (rat), 549
- Nonsteroidal antifertility agents, histological and biochemical effects on uterus and uterine fluid (rat), 235
- Nonylphenoxypolyethoxyethanol, spermicide, C-film, 291
- Norethandrolone and testosterone, control of spermatogenesis, 191
- Norethindrone (19-nor-17 α -ethynyl testosterone)
- Norethindrone, depression of plasma testosterone levels in men, 219
- Norethindrone acetate (19-nor-ethynyl-testosterone acetate)
- Norethindrone acetate, effect on liver mitochondrial structure and function (rat), 569
- Norethindrone and testosterone
 - control of spermatogenesis, 191
 - inhibition of spermatogenesis, 207
 - male fertility control, 219

CONTRACEPTION

- Norethisterone acetate-ethinyl estradiol
 - serum protein-bound carbohydrate and seromucoid, 541
 - study of folate status, 43
- Norethynodrel (17 α -ethynyl-17 β -hydroxy-5(10)estrene-3-one)
- Norethynodrel
 - binding to endometrium and myometrium cytoplasmic fractions, 451
 - binding to uterine cytosol (rat), 451
- Norgestrel, dimethylpolysiloxane capsule, local intrauterine effect (rabbit), 439
- Norgestrienone (17 α -ethynyl-17-hydroxy-estra-4,9,11,13-tetra-3-one)
- Norgestrienone and testosterone, inhibition of spermatogenesis, 207
- Once-a-month oral steroid contraceptive, quinestrol-quinestanol, 37
- Oral contraceptive therapy, changes in serum vitamin A levels, 13
- Oral once-a-month steroid contraceptive, quinestrol-quinestanol, 37
- Ovarian cysts, use of IUD, 521
- Ovulation blockade by rabbit anti-luteinizing hormone releasing factor serum (rat), 133
- Ovulation detection, WHO Task Forces, 67
- Ovum transport, methods for regulation, WHO Task Forces, 67
- Oxymetholone, influence on HCG stimulated corpus luteum, 515
- 15-me-PGF_{2 α} , intra-amniotic induction of midtrimester abortion, 113
- Pharmacokinetics, 16 α -ethylthio-9 β , 10 α -pregna-4,6-diene-3,20-dione (Ro 6-3129) (man, sheep), 53
- Pharmacological models, WHO Task Forces, 67
- 2-Phenyl-3-p-(β -pyrrolidino-ethoxy)phenyl-6-methoxy-benzofuran hydrochloride (DBF), effect on uterus and uterine fluid (rat), 235
- 2-Phenyl-3-p-(β -pyrrolidino-ethoxy)phenyl-naphtho (2:1, b) furan (NF), effect on uterus and uterine fluid (rat), 235
- Pill users, levels of serum protein-bound carbohydrate and seromucoid, 541
- Plasma levels of estrogens during treatment with medroxyprogesterone acetate, 165
- Plasma testosterone, depression in men administered norethindrone, 219
- Polyethylene IUD, uterine neutrophilic response (rat), 549
- Polyethylene IUD sham treatment, effect on implantation of blastocyst (rat), 555
- Polylactic acid, biodegradable carrier for contraceptive steroid (rat), 227
- Polymeric systems, release of progesterone (monkey), 299
- Post-abortion insertion of Copper T 200 and Lippes loop, 583
- 16 α -Ethylthio-9 β -10 α -pregna-4,6-diene-3,20-dione (Ro 6-3129), pharmacokinetics (man, sheep), 53
- Pregnancy termination, potential use of ultrasound, 429
- Proctoscopic tubal sterilization, 415
- Progesterone release from polymeric systems (monkey), 299
- Progesterone-containing silicone vaginal devices, evaluation (monkey), 561
- Progestin and androgen, combined administration for control of spermatogenesis, 191

- Progesterone and testosterone, inhibition of spermatogenesis, 207
- Prostaglandin, intra-amniotic administration, 113
- Prostaglandin E₂ vaginal suppositories, termination of early pregnancy, 255
- Prostaglandins, effect of intratesticular injections (rat), 361
- Prostaglandins in fertility regulation, WHO Task Forces, 67
- Quinestrol-quinestanol
 - life table analysis, 37
 - once-a-month oral steroid contraceptive, 37
- Release of progesterone from polymeric systems (monkey), 299
- Return of fertility, after discontinuation of use of medroxyprogesterone acetate, 407
- Safety, use and impact, birth control methods, 1
- Salpingectomy, sterilization through posterior colpotomy, 577
- Seromucoid level in pill users, 541
- Serum protein-bound carbohydrate and seromucoid in pill users, 541
- Serum vitamin A levels, changes during oral contraceptive therapy, 13
- Silicone vaginal devices, progesterone-containing (monkey), 561
- Silk IUD, uterine neutrophilic response (rat), 549
- Sperm migration and survival, methods for regulation, WHO Task Forces, 67
- Spermatogenesis
 - autoimmune hypospermatogenesis after vasectomy (guinea pig), 147
 - control by combined progesterone and androgen administration, 191
 - inhibition without loss of libido, 207
- Spermatozoa and accessory genital organs, effect of testosterone after castration (rat), 471
- Spermicide, nonylphenoxypoly-ethoxyethanol, C-film, 291
- Sterilization
 - hysteroscopic, workshop, 265
 - salpingectomy through posterior colpotomy, 577
 - scale of use, safety and impact, 1
 - tubal, use of proctoscope, 415
- Steroids, scale of use, safety and impact, 1
- Termination of pregnancy, potential use of ultrasound, 429
- Testes and accessory sex glands, effect on intratesticular injections of prostaglandins (rat), 361
- Testosterone
 - effect after castration (rat), 471
 - plasma, depression in men administered norethindrone, 219
- Testosterone and norethindrone, male fertility control, 219
- Testosterone and progesterone
 - combined administration for control of spermatogenesis, 191
 - inhibition of spermatogenesis, 207
- Translocation of Lippes loop, conversion into a closed loop, 357
- Tubal sterilization, use of proctoscope, 415
- Ultrasonic detection, localization and identification of IUDs, 485
- Ultrasound, potential use for termination of pregnancy, 429
- Use, safety and impact, birth control methods, 1
- Uterine capsules, release of progesterone from polymeric systems (monkey), 299

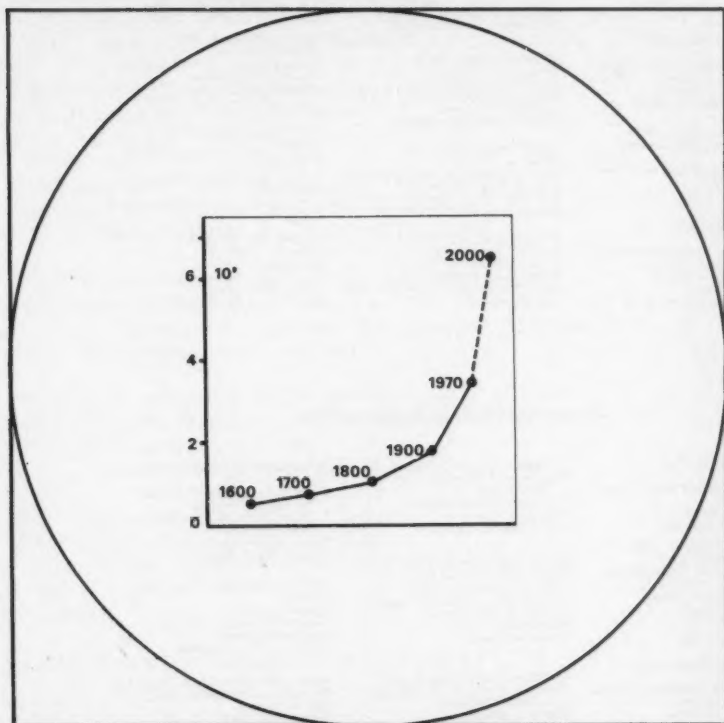

CONTRACEPTION

- Uterine cytosol, binding of norethynodrel (rat), 451
- Uterine fluid
 - effect of nonsteroidal antifertility agents (rat), 235
 - effect on eggs in culture (mouse), 343
- Uterine neutrophilic response to IUDs (rat), 549
- Uterus and uterine fluid, effect of nonsteroidal antifertility agents (rat), 235
- Vaginal contraceptive, C-film, 291
- Vaginal devices, progesterone-containing silicone (monkey), 561
- Vaginal suppositories, prostaglandin E₂, for termination of early pregnancy, 255
- Vasectomy, autoimmune hypospermatogenesis (guinea pig), 147
- Vitamin A, serum levels during oral contraceptive therapy, 13
- WHO Task Forces for research and development, fertility regulating agents, 67
- Xenoantiserum, effect on development of blastocysts (mouse), 327

Vol. 8 1973
JULY-DECEMBER

CONTRACEPTION

AN INTERNATIONAL JOURNAL

DANIEL R. MISHELL, Jr., M.D.—Editor

ROBERT M. NAKAMURA, Ph.D.—Managing Editor

Publisher: GERON-X, INC., LOS ALTOS, CALIF.

BOARD OF ASSOCIATE EDITORS

M. C. Chang, Ph.D., Sc. D.
Senior Scientist
Worcester Foundation for
Experimental Biology
Shrewsbury, Massachusetts 01545

Philip A. Corfman, M.D.
Director of Population Research
National Institute of Child Health
and Human Development
Bethesda, Maryland 20014

Judith Blake Davis, Ph.D.
Professor
Graduate School of Public Policy
2607 Hearst Avenue
University of California
Berkeley, California 94720

Joseph W. Goldzieher, M.D.
Director, Division of Clinical
Sciences
Southwest Foundation for Research
and Education
San Antonio, Texas

Roy O. Greep, Ph.D.
Director
Laboratory of Human Reproduction
& Reproductive Biology
Harvard Medical School
45 Shattuck Street
Boston, Massachusetts 02115

Dean L. Moyer, M.D.
Professor of Obstetrics and
Gynecology
University of Southern California
School of Medicine
Los Angeles, California 90033

William D. Odell, M.D.
Professor and Chairman
Department of Medicine
Harbor General Hospital
U.C.L.A. School of Medicine
Torrance, California 90509

C. Alvin Paulsen, M.D.
Professor of Medicine
Department of Medicine
University of Washington
School of Medicine
Seattle, Washington 98114

John J. Sciarra, M.D., Ph.D.
Professor and Head
Dept. of Obstetrics and Gynecology
University of Minnesota
Box 395, Mayo Memorial Building
Minneapolis, Minnesota 55455

M. C. Shelesnyak, Ph.D.
Director, Interdisciplinary
Communications Program
Smithsonian Institution
1717 Massachusetts Avenue, N.W.
Washington, D.C. 20036

Sheldon Segal, Ph.D.
Director, Bio-Medical Division
The Population Council
Rockefeller University
York Avenue and 66th Street
New York, New York 10021

Sidney Shulman, Ph.D.
Professor and Chairman
Department of Microbiology
New York Medical College
Fifth Avenue at 106th Street
New York, New York 10029

Anna L. Southam, M.D.
Program Officer
International Division-Population
The Ford Foundation
320 East 43rd Street
New York, New York 10017

William N. Spellacy, M.D.
Professor
Department of Obstetrics and
Gynecology
University of Miami School of
Medicine
P.O. Box 875, Biscayne Annex
Miami, Florida 33152

Christopher Tietze, M.D.
Associate Director
Bio-Medical Division
The Population Council
2 East 103rd Street
New York, New York 10029

Corresponding Editors for CONTRACEPTION

Elisamar Coutinho, M.D.
Professor
Department of Biochemistry and
Obstetrics
University of Bahia
Salvador, Bahia, Brazil

P. Giorgio Crosignani, M.D.
Professor Incaricato di
Endocrinologia Ginecologica
alla Facoltà di Medicina
Dell'Università di Milano
20122 Milano, Italy
Via Comandante 12

Egon Diczfalusy, M.D.
Professor
Reproductive Endocrinology
Research Unit
Swedish Medical Research Council
Karolinska Sjukhuset
Stockholm 60, Sweden

J. Ferin, M.D.
Professor
Physiology of Human Reproduction
Research Unit
University of Louvain Hospital
Louvain, Belgium

Professor Romano Forleo
Director of Obstetrics and
Gynecology
Fatebenefratelli Hospital
Professor of Gynecological
Endocrinology
Via della Lungarola 65,
Roma, Italy

I. Halbrecht, M.D.
Professor
Department of Obstetrics and
Gynecology
Tel Aviv University Medical School
Tel Aviv, Israel

Professor Dr. med. Jürgen Haller
Professor of Obstetrics and
Gynecology
Universitäts-Frauenklinik
Humboldtallee 3
34 Göttingen, Germany

Dr. A. B. Kar, Ph.D., F.M.I.
Deputy Director and Head
Division of Endocrinology
Central Drug Research Institute
Chatter Manni Palace
Post Box No. 173
Lucknow, India

Guillermo Lopes-Escobar, M.D.
Professor Asociado, Ginecología
Universidad Nacional
Bogotá, Colombia

Jorge Martínez Manauton, M.D.
Head, Department of Scientific
Research
Instituto Mexicano del Seguro
Social
Apartado Postal 73-032
Mexico 73, D.F., Mexico

Dr. M. R. N. Prasad
Professor of Zoology
University of Delhi
Delhi 7, India

Dr. (Mrs.) Shanta S. Rao
Reproductive Physiology Unit
Indian Council of Medical Research
Seth G. S. Medical College
Parel, Bombay 12, India

Edris Rice-Wray, M.D., M.P.H.
Director General
Training and Research Center
for Family Planning
of the Asociación Pro-Salud
Maternal, A.C.
Apartado 7-1050
Mexico City 7, Mexico

Ian F. Sommerville, M.D., Ph.D.
Director
Endocrine Unit
Chelsea Hospital for Women
Dorchester Street
London, S.W. 3, England

Pincus Taft, M.D., F.R.A.C.P.
Diabetic and Metabolic Unit
Alfred Hospital
Commercial Road
Prahran, Victoria, 3181
Australia

Dr. Martin P. Vasey
University of Oxford
Department of the Regius
Professor of Medicine
Radcliffe Infirmary
Oxford OX2 6HE
England

Juan Zailarri, M.D.
Associate Professor
Department of Experimental
Fertility
Universidad de Chile Clínica
Obstétrica
Hospital "Jose Joaquín Aguirre"
Casilla 6637
Santiago, Chile

Scale of Use, Safety and Impact of Birth Control Methods Anna L. Southam	1
Changes in Serum Vitamin A Levels during and after Oral Contraceptive Therapy Isabel Gal and Christine E. Parkinson	13
Inhibition of the Corpus Luteum Function in Women Taking Large Doses of Diethylstilbestrol Elof D. B. Johansson	27

Release of ^3H -Progesterone from Polymeric Systems in the Rhesus Monkey B.D. Kulkarni, T.D. Avila, B.B. Pharriss and A. Scommegna ..	299
Low-Dose Lynestrenol as a Contraceptive Method J. Prsić and P.M. Kićović	315
Effects of Xenoantiserum on the Development <i>In Vitro</i> of Mouse Blastocysts from Normal Pregnancy and from Delay of Implantation with and without Activation by Oestradiol Stellan Håkansson	327
Effect of Uterine Fluid from Mice with IUDs, and Various Chemical Compounds, on Mouse Eggs in Culture W.G. Breed, P.V. Peplow, C. Jefferies and P. Eckstein	343
Conversion of a Lippes Device into a Closed Loop: A Potential Hazard of Translocation Mahasara Gunaratne and H.M. Mahroof	357
Effects of Intratesticular Injections of Prostaglandins on the Testes and Accessory Sex Glands of Rats G.N. Memon	361
Current Bibliographic Index of Mammalian Reproduction. LIV Julius S. Greenstein	371

Depot-Medroxyprogesterone Acetate as a Contraceptive Agent: Return of fertility after Discontinuation of Use Edwin B. McDaniel, M.D., Tieng Pardthaisong, M.A.	407
Proctoscopic Tubal Sterilization P. Rattakul, M.B., Ch.B., M.R.C.O.G.	415
Ultrasound: Its Potential Use for the Termination of Pregnancy Melvin R. Sikov	429
Local Progestational Effect of Norgestrel in an Intrauterine Silastic Capsule R. Jones, M. Cohen, and J. Bell	439
Binding of 6,7- ^3H -Norethynodrel to the Rat Uterine Cytosol and to Human Endometrium and Myometrium K. Murugesan and K. R. Laumas	451

Effect of Castration and Testosterone Treatment on Spermatozoa and Accessory Genital Organs of Rats	
R. P. Das, M.Sc., D. Phil., Somnath Roy, M.B.B.S., D. Phil., G. P. Bandopadhyaya, M.Sc.	471

Ultrasonic Detection, Localization and Identification of Intrauterine Contraceptive Devices	
D. Janssens, M.D., M. Vrijens, M.D., M. Thiery, M.D., Ph.D., and H. Van Kets, M.D.	485

Seventh Postgraduate Course offered by The American Fertility Society	497
